

We Can – 3 sewing machines donated – August 2019

The Brazilian Social Committee donated 3 sewing machines to Yes We CAN, a social entrepreneurial project based in Cape Town that **teaches sewing and business skills to women in very vulnerable conditions.** According to Mila Moreano, head of the project, more than 500 women have been trained so far. All were previously unemployed and become the main breadwinners in their families. The machines will allow Yes We Can to broaden the impact of their Mobile Sewing and Business School, that goes to organizations, libraries, churches and community halls to teach the women. The sewing machines were bought with revenues from the third edition of The Brazilian Traditional Country Fair Arraiá 2019, that took place in August.
